*GAWR DO NOT NECESSARILY TOTAL GVWR

Vehicle Loading—Every effort has been made to provide the greatest number of options for the motorhome owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices so that they remain within the manufacturer's specified chassis weight limits. **DO NOT OVERLOAD THE MOTORHOME.**

Unloaded Vehicle Weights (UVW) based on standard features and Full Fuel; optional equipment not included. NCC determined by subtracting UVW from GVWR and includes fluids, options and cargo.

Warning: This information is intended as a guide only. Weights of individual vehicles may vary. Consult your Owner's manual for complete loading, weighing & towing instructions.
