

AIRSTREAM

TRAVEL TRAILERS

LIGHTWEIGHT. STREAMLINED.

FUEL EFFICIENT.

Founder Wally Byam knew that a rounded low-profile shape would make towing easier and more stable. And he knew that aluminum would make his trailers as light as possible.

The successful combination of its rounded shape and lightweight design has made the Airstream world-renowned for their superior integrity. That's because Airstream employs semi-monocoque construction, consisting of an inner and outer layer of aluminum stretched and riveted to the frame. This frame becomes a working part of the integral structure.

Hand-built with a craftsman's attention to detail, this aluminum skin offers unmatched durability and strength for its weight. Just ask one of the more than 100,000 Airstream owners.

SPORT TRAILERS
